CLEAN DRINKING WATER TEAM SELECTED AS TOP CHARITY AND RECEIVES FUNDING FROM 100PALMBEACH.ORG

The CLEAN DRINKING WATER TEAM (CDWT), a West Palm Beach based 501(c)(3) charity, presented to 100PALMBEACH.ORG at their May quarterly meeting along with two other charities and CDWT was selected as the recipient of the May funding award. After a seven minute presentation by the three invited charities, the members vote and then each member of 100PALMBEACH presents \$100 to the selected charity. There were 15 members in attendance and 43 total members. CDWT received \$1,500 at the meeting and will receive an additional \$2,800 from the members not on attendance. The funding CDWT received will immediately be used to help fund a clean drinking water project in San Pedro Sula, Honduras. On May 16 a team from CDWT will go to Our Little Roses Orphanage for girls in Honduras to perform maintenance on a water purification system that provides clean drinking water to the (75) girls in the home.

CLEAN DRINKING WATER TEAM is a West Palm Beach, Florida based 501(c)(3) charity founded in 2017 by a team of professional water scientists who provide clean drinking water solutions for the most marginalized and desperate communities around the world. Our projects also restore dignity and pride in the communities we assist. Read more about results from our projects at www.cdwt.org
